General Information

A Brief History of Veterinary Education in Hungary

In 1787, shortly after the foundation of the world's first veterinary school (1762, Lyons) a "Chair for Animal Healing" was established at the Faculty of Medicine in the town of Pest (now an area of the city of Budapest) to provide students of medicine and surgery with basic knowledge of animal diseases and their management, an integral part of a general practitioner's activity at that time.

In the early 19th century, the rapid expansion of the traditional horse and cattle breeding on the Hungarian plains called for adequate institutional development. Accordingly, in 1851 the Chair for Animal Healing became independent from the Medical Faculty as the "Royal Institute of Veterinary Medicine". In 1899, its status was changed to that of a Royal College with the right to issue the D.V.M. diploma (Doctor Veterinariae Medicinae). As an independent College, this school earned an international reputation in the first half of the 20th century. From 1960 it obtained the status of an independent University.

As a part of the countrywide reorganization of higher education in 2000 in the University became the Faculty of Veterinary Science, Budapest of the newly founded Szent István University, which is also a state university. The program has been continually supervised and accredited by the Hungarian Accreditation Board.

International Accreditation

In 1995 the veterinary school was internationally accredited by the European Association of Establishments for Veterinary Education (E.A.E.V.E.). The follow-up visitation took place in 2004 with a posi-

tive outcome. The accreditation of the Budapest veterinary school was reinforced by the E.A.E.V.E. and the F.V.E. (Federation of Veterinarians of Europe). The Accreditation Report concludes: "...the University of Veterinary Science can claim a proud position among its European counterparts. Its young graduates need not be afraid to compete with their European colleagues for their knowledge and practical skills."

Hungary is since 2004 a full member of the European Union which means acceptance of degrees within the EU and their equivalence with degrees from other EU-countries. The Budapest-diploma is accepted in addition to EU-countries in several others as well. After the completion of a board exam in Canada or the US, the graduates are entitled for a residency and to practise in North America.

Facts and Figures

The Faculty of Veterinary Science is, as appropriate for a country with a population of 10.5 million, the only veterinary school in Hungary. Current enrolment is about 100, 120 and 120 students for the Hungarian, German and English programs, respectively. This means that we have a total of 1,000 students at the veterinary school. The Faculty is officially supervised by the Ministry of Education and its teaching and research programs are also sponsored by the Ministry of Agriculture and Regional Development and the Hungarian Academy of Sciences.

Library and Internet

The Veterinary Science Library, Archives and Museum has a rich collection. Its historic library with 16th-19th century books, the faculty archives and

the museum of veterinary history are particularly valuable. Besides, it is a modern information centre with current journals and books in veterinary science and biology in printed or electronic format, an online catalogue, a digital library, large international databases (such as CAB Abstracts, FSTA, Zoological record, Web of Science etc.) and a dynamic homepage. A computer room, printing and copying facilities are also available.

Campus and Field Station

The campus is located in the central area of Budapest, near to one of the main railway and subway stations, easily accessible by public transport. The main Field Station of the Faculty is located in Üllő, ca. 10 km from the boundary of the city. It comprises an Experimental Institute for biotechnology, a living gene-bank for preservation of old Hungarian breeds of farm animals, horse stables with a riding-school and hippodrome, and a Large Animal Clinic – opened in Summer 2001. Beside the daily routine work, the Clinic is used for practical training.

In 2006 a new up-to-date Small Animal Clinic was opened to provide students, staff and clients with 21st-century facilities for diagnostics and treatment.

The English-Language Program

The English-language program at the University of Veterinary Science was instituted in 1992 for students with a working knowledge of English. The English-language **program begins in early September** each year. The curriculum for veterinary medicine takes five and a half years and parallels the standard curriculum found in most European veterinary programs. During the first two (preclinical) years students study Anatomy, Histology, Em-

bryology, Biology, Chemistry, Physics, Zoology, Physiology, Biochemistry, Botany, Biomathematics and Computer Application. English, Latin and Hungarian languages can be chosen as optional courses. During the next three (clinical + paraclinical) years, the curriculum includes Animal Breeding, Pathology, Pharmacology, Toxicology, Microbiology, Pathophysiology, Parasitology, Animal Nutrition, Veterinary Medicine, Surgery, Obstetrics, Food Hygiene, Forensic Veterinary Medicine, Animal Hygiene, Epizootology, State Veterinary Medicine and Economics. The last, 11th semester includes the clinical rotation, when students have to do practical work only. Practical work at the school's Field Stations and State Farms as well as with practitioner veterinarians is part of the curriculum.

The entire curriculum (divided into core subjects and electives) consists of more than 5000 hours, a curriculum standard for the European Community. Before the conclusion of the degree program the students must submit a dissertation and take a state examination. Hungary is a full member of the European Union. The degree received at the Faculty of Veterinary Science, Budapest is accepted automatically by the member countries of the Union and in several countries of the world. The graduates of our English-language program – coming mainly from the Scandinavian area (esp. Norway and Sweden), Ireland, Israel, UK, Greece, Cyprus and Canada – report on equal chances with graduates in their home countries.

Statement of Non-Discrimination

The Faculty of Veterinary Science, Budapest does not discriminate on the basis of race, color, national or ethnic origin, religion, sex, marital status, age or handicap.

Application and Admission Requirements

General Requirements

The Faculty of Veterinary Science seeks students with appropriate academic qualifications, good command of English, and strong motivation to study and practice veterinary medicine. Letters of recommendation can also be enclosed. The entrance examinations gain to test (in oral or written form) competency in the English language, also in relation to the academic subjects, which are Biology and Chemistry.

Application Requirements

Application form and all supporting materials should be presented **by February 15 for the first round of examinations**, and **by April 30 for the second round** to the officially appointed representative of the School in your country (see list of representatives at www.studyhungary.hu) or directly to Faculty of Veterinary Science (English Secretariat, H-1400 Budapest, P.O. Box 2, Hungary). **In case of vacancies further applications are also welcome until mid-September.**

Please submit:

1. **Completed Application Form** with a certificate showing the payment of the *Application Fee* of EUR 150 (non refundable). In case the entrance examination is taken in the homeland of the applicant information about the *Examination Fee* will be given by the officially appointed representative of the school. Examination Fee in Budapest is EUR 250 (non refundable after May 1, 2008).
2. **Secondary School Leaving Certification** from an accredited secondary school. The school leaving certificate is a necessary prerequisite for starting the studies. Those who are in the last year of their secondary school studies by the application deadline can also apply but only with the obligation to produce their certifications before registration to the Faculty.

3. **Curriculum Vitae** in English.
4. **Medical Certificate.** Certification of physical and mental capability of the applicant issued by a general practitioner.
5. **Signed Photographs.** 6 passport size photos – please, indicate your name on the rear.
6. **Copy of Passport** with your personal data.
7. **Letters of Recommendation** are welcome. Letters in English from secondary school principal or science instructors are preferred. Particularly valuable are letters of recommendation from persons who studied at or graduated from our school.

Transfer from other Universities

The Faculty of Veterinary Science Budapest, as a member of the international academic community recognizes studies at other accredited Universities from any part of the world particularly if these included natural sciences. Accordingly, **applicants who have completed a section of the curriculum at another University in any field of science might be admitted upon the study of the submitted material (transcripts and references) without an entrance examination!** Subjects of previous studies identical or similar to those contained by our veterinary curriculum can be applied for acceptance. Preliminary evaluation is made also on the basis of submitted copies. **However, original syllabi of your previous/present studies indicating the content of the course, the number of classes and credits earned has to be sent by your school directly to the Student's Secretariat in Budapest within 3 months.** If a number of exemptions are approved, the time of studies can be shortened and – if prerequisites are met – a start in February may also be possible. Please note: prior to entering the 3rd year of the Budapest-curriculum all exams from the previous two years have to be passed!

Entrance Examination

After the University reviews the application materials and determines that the applicant appears qualified and potentially able to complete the program, arrangements for an entrance examination (**alternatively** chosen by the applicant: **written multiple choice test + interview / oral exam + interview**) will be made. The examination will test competency in the English language also in relation to the academic subjects, which are Biology and Chemistry.

Examinations are arranged in Scandinavia, Ireland, Greece, Cyprus, Israel, the United States and other locations in Europe and Asia between March and July. Applicants will be notified about the place and exact date of the examination by the local representative (see *www.studyhungary.hu*) or by College International. Further rounds of entrance examinations will be organized in August depending on the number of vacancies.

Evaluation

The evaluation of the Entrance Examinations will be made by the University Board. Applicants will be notified within two weeks after the examination. Once admitted, the Student Secretariat will provide you all necessary documents for the student visa and loan application in your home country. The admission is valid only to begin studies in the academic year you applied for.

One-Year Pre-Application Preparatory Course

This course, organized by College International, is arranged for students who require additional instruction or review in sciences and English to prepare them to take the entrance examination for admission into the regular degree program in Veterinary Medicine. It must be understood that

completion of this course does not imply or assure admission to the degree program at the Faculty of Veterinary Science.

Please, contact us at info@studyhungary.hu for a detailed brochure.

Entrance Examination Topics

Biology

1. Chemical basis of life: Carbon, Oxygen, Nitrogen
2. Chemical groups, Water, pH, Lipids
3. Carbohydrates
4. Amino acids, Proteins, Biochemical reactions, Enzymes
5. Nucleosides, nucleotides, nucleic acids
6. Discovering the genetic material
7. Flow of genetic information: Genetic code
8. DNA replication
9. Synthesis of RNAs: Transcription
10. Synthesis of Proteins: Translation
11. Cell division: Mitosis
12. Cell division: Meiosis
13. Structure of cells: Nucleus, nucleolus
14. Structure of the cells: Endoplasmic Reticulum
15. Structure of the cells: Cytoplasm, cytoskeleton, vesicles, cell membrane, cell wall, comparison of eu- and prokaryotic cells
16. Structure of the cells: Mitochondria
17. Oxydative phosphorylation
18. Basics of Immunology
19. Questions related to the structure of the mammalian body, circulation, nervous system and visceral organs etc. may also occur.

Chemistry

1. Matter, atomic theory of matter
2. Periodic table
3. Nomenclature of inorganic compounds
4. Electronic structure of atoms

5. Stoichiometry and chemical equations
6. Chemical bounds and intermolecular forces
7. Gaseous state, gas laws
8. Solutions, concentrations
9. Reaction kinetics and chemical equilibria
10. Electrolytic equilibria, acid-base theories
11. Redox reactions
12. Introduction to organic chemistry, alkanes
13. Cycloalkanes, alkenes, dienes and alkynes
14. Aromatic hydrocarbons and alkyl halides
15. Alcohols, phenols and ethers
16. Aldehydes and ketones
17. Carboxylic acids
18. Carboxylic acid derivates (esters, amides) soaps
19. Amines, heterocyclic compounds (pyrrol and pyridine)
20. Carbohydrates

Fees and Costs

Yearly Tuition Fee

Tuition Fee for new admissions to the
Academic Year 2008/09 **EUR 10,980**

Payable:

- when admitted a deposit of EUR 800 should be paid in order to ensure your place (Failing to send the required deposit before the deadline will result in losing the offered place.) For students in the regular course of their studies registration for semester 2–11 does not require a deposit payment. The semester's tuition fee has to be paid in full before registering to a semester.
- before August 20th the payment should be completed to a total of EUR 6,780
(1st term tuition fee without registration fee)
- second term tuition is payable
in January EUR 4,200
- fee for clinical rotation
(11th semester) EUR 5,490

Additional Fees

Application fee EUR 150
(payable to the local representative when submitting your application, non-refundable)

Entrance examination fee EUR 250

If the exam is taken in Hungary. (At other locations the fee will be given by the official representative.)

Registration fee EUR 150
(payable once during your studies, together with the 1st semester tuition fee: before August 20)

Payments can be made by cash, bank transfer or bank checks payable in EUR to the bank account of the university program: International Studies, IBAN: HU08-1030-0002-5011-2152-4104-4886, MKB Bank, H-1051 Budapest, Szent István tér 11 (main branch: H-1056 Budapest, Váci u. 38) Hungary. Swift code: MKKBHUHB

Personal checks are not accepted.

The transfer sheet should include **the name of the student** and a remark "Vet. Med."

Please, note that the above mentioned **net** amounts have to arrive to the account – the commission charges have to be paid by the student.

The cost apply for those who begin their studies in the academic year 2008/09. Tuition fees will not change throughout their studies unless interrupted for more than a year. Returning to the studies after a longer period, the tuition fee valid for the actual semester has to be paid.

Refund Policy

I. Prior to Registration at the university

- Non-refundable:

application fee	EUR 150
entrance examination fee	EUR 250

 (or other, if the exam is taken outside Hungary)

tuition deposit	EUR 800
-----------------	---------
- Refundable:
 - 100% all other payments already made

II. After Registration at the university

1. Students are not entitled to a refund of the tuition fee if they are compelled to withdraw for academic or disciplinary reasons or if the semester is interrupted after October 30th or March 19th, respectively.

2. Students are only entitled to a refund on a pro rata basis (months started) if studies are interrupted.

The refund is applicable with the following conditions:

- Non-refundable:

application fee	EUR 150
entrance examination fee	EUR 250

 (or other, if the exam is taken outside Hungary)

tuition deposit	EUR 800
registration fee	EUR 150
- Refundable:
 - Proportional costs are refundable according to the refund policy stated above.

No other claims are acceptable.

After Acceptance

Passport and Visa for Hungary

A passport valid for Hungary and for at least 2.5 years is necessary. EU and EEA countries: no student visa is needed, but after entering Hungary a residence permit should be arranged. Non EU countries: a D5 student-visa is needed to enter Hungary. Detailed information is given after acceptance. Please do get also informed about changes due to Hungary joining the Schengen Countries.

Assistance Offered upon Arrival

The Faculty of Veterinary Science and College International welcome applicants wishing to study in Hungary. Students admitted get all the necessary help and support to settle down, get adjusted to their new life and become successful students.

Airport Pick-up

Upon request College International provides airport pick-up. Please send an e-mail to info@studyhungary.hu. A service fee is applicable.

Housing

An accommodation service – provided by College International – is available to help students find a suitable place to live and provide advice and assistance about the rental process.

Insurance

A full coverage basic health insurance for Hungary is a **prerequisite for registration** at the Faculty of Veterinary Science. Beside others for example Generali-Providencia Insurance Company offers a 10/12-month health insurance scheme. According to this policy medical care is provided by the Semmelweis University clinics. This insurance is valid only in Hungary.

You will find details in the letter of acceptance.

Required Textbooks

Students may buy textbooks with the assistance of College International.

It is the student's responsibility to have all the required textbooks.

Academic Policies, Academic Calendar, Curriculum

Academic Policies

Class attendance and participation in scheduled laboratories and practical exercises is required. Students are expected to take examinations when scheduled otherwise they lose chances. About details you shall get information at the registration of the Freshman. The credit-system allows a certain degree of flexibility in the timing of the exams. This is conform to international standards and helps an easier setting-in of students with different educational backgrounds.

Types of Evaluation

1. **Signature** (aláírás) – participation in scheduled workshops has to be certified by the signature of the authorized lecturer.

2. **Practical Course Grade** (gyakorlati jegy) – may follow either the 5-scale or 3-scale grading system.
3. **Semi-final Examination** (kollokvium) – evaluation of the subject matter of 1 semester, 5-scale grading system.
4. **Final Examination** (szigorlat) – evaluation of the subject matter of 2 or more semesters, 5-scale grading system.

Grading System

1. **Five-Scale:** 5 (jeles) – Excellent; 4 (jó) – Good; 3 (közepes) – Fair; 2 (elégéséges) – Passing; 1 (elégtelen) – Fail
2. **Three-scale:** kiválóan megfelelt – Excellent; megfelelt – Satisfactory; nem felelt meg – Unsatisfactory

Academic Calendar

In the Academic Year 2008/09 the semesters including exam periods are scheduled:

Fall Semester:

early September – mid December 2008
followed by a six-week exam period

Spring semester:

early February 2009 – mid May 2009
followed by a six-week exam period

Curriculum – 2008/09

1st Year

Subject	1st Semester				2nd Semester			
	Hours/semester		Exam	Credit	Hours/semester		Exam	Credit

+ obligatory clinical practice (day and night shifts) with small and large animals

The 9th semester covers 15 weeks. The 10th semester covers 10 weeks of teaching at the campus followed by an extramural practice. One unit of instruction is a 45-minutes period.

Abbreviations: S – Signature, PCG – Practical course grade, SFE – Semi-final examination, FE – Final exam, SE – State exam

Clinical rotation (11th semester)

The 11th semester includes practical work at the Small Animal Clinic and the Large Animal Clinic.

Practical courses **between semesters** (extramural practice) are to be accomplished in farming units, slaughterhouses and diagnostic institutes. External disciplinary practice, organized outside campus at veterinary institutions and large-scale farming units between the semesters, cover a total of 18 weeks (720 hours). Time devoted to specific veterinary fields are presented in the following table.

Scheme of **extramural practical training** between semesters

Discipline	Semester*	Duration
Animal Husbandry	4th	2 weeks
Animal Nutrition	6th	2 weeks
Clinical Therapeutics	8th	4 weeks
Food Hygiene	9th	3 weeks
Laboratory Diagnostics	9th	3 weeks
Clinical Practice	10th	2 weeks
Vet. Administration	10th	2 weeks
Total (8h/5days/week)		18 weeks (720 hours)

* To be completed after the semesters given.

In addition to core studies a wide selection of electives make the curriculum more individually-suited.

OTHER INTERNATIONAL DEGREE PROGRAMS AT HUNGARIAN UNIVERSITIES

Semmelweis University, Budapest

Faculty of Medicine, Faculty of Dentistry and Faculty of Pharmacy

Doctor of Medicine, Doctor of Dentistry, Master of Pharmacy

Medicine: 6 years, in English and German

Dentistry: 5 years, in English and German

Pharmacy: 5 years, in English
